LOT 410 - Beam Cutting Saw - Works, As Is

13 Seller Inv13 JSM Woodworking

12 Item Location Inv12 JSM Woodworking - Fargo, ND

Description

Used 1998 Beam saw for cutting wood panels. The computer controller is out on it but a replacement controller is about 10K I have included the quote. The blade motors as well as carriage motor work just fine. We have been using it manually only thing you can't do is control the fence automatically.

Winning bidder will remove from JSM in Fargo.

Item Location: JSM Woodworking - Fargo, ND
